**Nondh
Nuchmorn**

Assistant Professor
Thammasat University

** Speaker:*

**Dr. Chanchai
Amornvipas**

Department Director
Energy Regulatory Commission

ROUND 1

4:00 - 4:45 PM

ROOM

LONDON 1

This session explores how Thailand can support rapid data-centre growth while maintaining grid reliability and energy security. The discussion covers rising electricity demand, grid capacity and connection readiness, power quality, renewable-energy access, and infrastructure investment – focusing on how to enable growth without creating risks for the wider energy system and economy.

QUICK WIN TECHNOLOGY

Energy Now : What can companies do today?

Moderator:

Natagorn Kawsuay

Head of Business Development & Strategic Partnerships

Power Systems & Solutions Co., Ltd.

** Speaker:*

Arthit Vechakij

President
Thai Renewable Energy (RE100)
Association

** Speaker:*

Annop Kingkachee

Managing Director
EEC Engineering Network Co., Ltd.

** Speaker:*

Karan Yamdagni

Chief Executive Officer
The Perfect Seals and Services Co., Ltd.

** Speaker:*

Patipan Kalvibool

Chief Technology Officer
Huawei Digital Power Thailand

** Speaker:*

Ibrahim Kocagoz

Director - Engineering Solutions
PCS Thailand

ROUND 1

4:00 - 4:45 PM

ROOM

LONDON 3

This session focuses on practical energy solutions that companies can implement today to reduce costs, emissions and operational risks. Topics include BESS and peak shaving, Cooling as a Service, energy efficiency for rotating machines and motors, energy recovery systems, and practical renewable-energy solutions available under current market arrangements.

ROUND 1

5:00 - 5:45 PM

ROOM

LONDON 1

This session examines the policy, infrastructure and market conditions needed to support investment and growth. Discussions will cover UGT 2, P2P electricity trading, wheeling charges, grid access, connection rules and capacity allocation, with a focus on creating greater predictability in policy, pricing and implementation timelines across Thailand's energy market.

STRATEGIC INITIATIVE

What must Thailand invest in NOW ?

Moderator:

Martin Venzky-Stalling

Chair, Sustainable Development Committee

Joint Foreign Chambers of Commerce in Thailand (JFTCC)

** Speaker:*

Kriengkrai Chokelarptawee

Senior Vice President,
Markets Solutions
Krungthai Bank

** Speaker:*

Sutheep Ratnabhas

Vice President and Board Member
Electric Vehicle Association
of Thailand (EVAT)

** Speaker:*

Zixuan Guo

Expert on Power Policy and Planning
UNESCAP

** Speaker:*

Natat Thinaphong

Sales Director
Siemens Energy Limited

** Speaker:*

Prawit Kongjan

Associate Professor
Faculty of Science and Technology,
Prince of Songkla University (PSU)

ROUND 1

5:00 - 5:45 PM

ROOM

LONDON 3

This forward-looking session explores major energy choices requiring long-term investment, coordinated policy and infrastructure planning. Topics include hydrogen, transport decarbonisation, power-plant modernisation, LNG diversification and energy resilience, as well as major grid and generation investments needed to strengthen Thailand's energy security and long-term competitiveness.
